BUILT BY SURFERS, FOR SURFERS

2024

With over 50 years of experience in manufacturing and designing wetsuits, Sola has been at the forefront of wetsuit innovation and watersports development. Making top quality products which are designed by surfers, for surfers.

CONTENTS

RASH VESTS	42 - 43		
FOOTWEAR	44 - 47		
HEADWEAR	48 - 49		

TECHNICAL FEATURES

SOLA 2024

WETSUIT NEOPRENE

ULTRALIGHT

Super light neoprene for added warmth and flexibility. Improved insulation.

4-WAY STRETCH

Highly flexible neoprene. Improves movement.

WETSUIT CONSTRUCTION

GLUED & BLIND STITCHED

Strong, durable and watertight construction.

FLATLOCKED

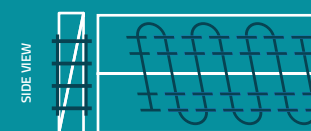

Flat and comfortable.

TOP VIEW

A blind stitch uses a curved needle and penetrates the neoprene only partway through. Since the holes are only partial, this stitch provides the best cold water protection and is the industry standard. Most blind stitches are reinforced with tape and/ or glue for extra durability and water protection.

TOP VIEW

A more durable stitch used in most summer wetsuits. Triple needles penetrate and bind layers of neoprene together providing a strong but flat stitch for comfort and strength. Not as water tight as blind stitching but very hardwearing.

WETSUIT LINING

QUICK DRYING

Allows for a quicker drying time.

THERMAL PLUSH LINING

Lightweight and flexible, giving improved movement and warmth.

LIQUID TAPE

100% waterproof. Seams are sealed with liquid rubber.

FOCUSED NEO TAPING

Flexible spot taping in strategic areas for extra strength.

MESH SKIN

Chest and back panels. Increases the warmth of the suit and helps to reduce wind-chill.

NEO TAPING

Flexible taping along seams for added strength. Limits water penetration and increases warmth.

DOUBLE DIAMOND

Durable, double knit nylon fabric protects high-wear areas.

WETSUIT ENTRY

FRONT ZIP

Front entry system. YKK zip.

BACK ZIP

Back entry system. YKK zip.

NEOPRENE THICKNESS

The neoprene used in Sola wetsuits varies in thickness. Measured in millimeters as indicated by these icons. The basic rule is, the colder the water the thicker the neoprene.

The SOLA logo is positioned at the top left of the image. It features a stylized white 'S' icon followed by the word 'SOLA' in a white, italicized, sans-serif font. The background of the entire image is a sunset over the ocean, with a bright sun low on the horizon creating a warm orange and red glow. The water in the foreground is dark blue with white foam from breaking waves.

INFLATABLE STAND-UP PADDLE BOARD

SOLA FUSION TECHNOLOGY

TRIPLE LAMINATED, HOT PRESSED PVC. MAKING THE SOLA SUP LIGHTER, TOUGH AND DURABLE. MAKING THE BOARD STIFFER THAN THE TRADITIONAL DOUBLE LAYER TECHNOLOGY.

REINFORCED INTERNAL RAIL WRAP
A HIGH-PRESSURE LAMINATED SEAM ENSURES A PERFECTLY AIRTIGHT AND WATERPROOF SEAL.

INFLATION VALVE
LOCKING ANTI-TWIST PUSH-PIN VALVE, WITH A STAINLESS STEEL D-RING FOR ATTACHING YOUR LEASH.

DIAMOND SKIN PAD
MACHINE-PRESSED DECKPAD TO ENSURE A PERFECT BOND. OUR SIGNATURE DIAMOND GROOVE PAD OFFERS TRACTION AND A COMFORTABLE GRIP.

FUSION LAMINATED RAIL WRAP
THE FINAL SEAL PROVIDES EXTRA COMPRESSION AND INCREASED STIFFNESS.

AIRTIGHT COATING
A HIGH TENSILE COATING IS FUSED TO THE DROPSTITCH CORE.

DROPSTITCH AIR CHAMBER
SUPER REINFORCED DROPSTITCHED PROVIDES STIFFNESS THROUGHOUT OUR BOARDS. INCREASED YARN DENSITY GIVES HIGH-TENSILE STRENGTH, WHICH CAN WITHSTAND PRESSURES OF 20PSI.

AN ALL ROUNDER - A MULTI PURPOSE BOARD THAT CAN BE USED BY ANY RIDER FOR ANY PURPOSE.

CARRY HANDLE
LOW-PROFILE, ERGONOMIC CARRY HANDLE.

FIN SET
TWO MOULD FINS, PLUS ONE FIN BOX (FIN INCLUDED).

INFLATION VALVE
LOCKED ANTI-TWIST PUSH-PIN VALVE TECHNOLOGY.

FEATURES: Prewashed lightweight beach towel. Highest weaving quality, absorbent, durable and very soft. Perfect for using at the beach, at home, sauna and picnic. A modern and simplistic design whilst staying lightweight and easy to carry. Absorbent & quick drying due to the quality of cotton used. Lets you dry off quickly when wet.

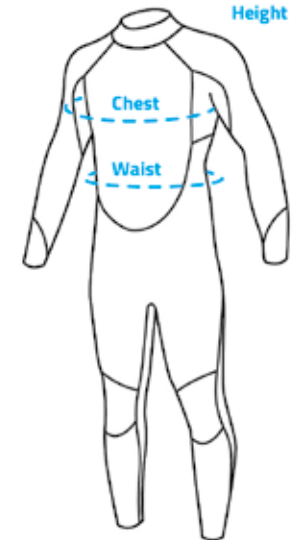

SIZE CHART

Wetsuits should feel snug on and you will probably feel that range of motion is slightly reduced, this is normal. However, make sure breathing doesn't feel restricted. Wetsuit fit should not be too loose. This would let water flow freely through the suit and would therefore lose all the benefits of the trapped water being warmed by your body. For a correct wetsuit fit, wrists, ankles and neck should be snug. The fit should not be too baggy in the underarm or leg area. Some bagginess at the small of the back is normal.
